

SAVE OUR NHS FROM LANSLEY'S BILL

The White paper on Health *Equity and Excellence: Liberating the NHS* poses a major threat to the NHS. If these radical proposals - which did not appear in either of the coalition manifestos - are enacted it will be the end of the NHS as we know and love it.

At a time of austerity, to spend £1.7 billion on restructuring the NHS and replacing it by an untried system seems the height of folly. We must oppose this bill vigorously.
